Metz Element series reflects contemporary urban design trends of oxidised metals in dark and light shades as well as a copper and white oxide style.

The significant variation creates a stunning look in larger areas and the dark material displays a surprising number of hues under strong lighting.

ELEMENT NANOGRIP®

SLIP RESISTANCE // MEDIUM / R10 / P4 / B

600 x 300 R

Light, Dark

Element NanoGRIP® provides a P4 slip resistant surface with sound wear characteristics suitable for all but the heaviest commercial traffic. All colours and formats in Metz Element can be produced in the NanoGRIP® surface, however minimum quantities may apply for other than the items shown.

ELEMENT MICROGRIP®

SLIP RESISTANCE // HIGH / R12 / P5 / C

600 x 600 R

Dark

600 x 300 R

Dark

Element MicroGRIP® provides high slip resistant performance for demanding commercial traffic areas, external paths and ramps. The flat mild textured surface of the MicroGRIP® finish provides the ideal balance between long term sustainable slip resistance and ease of cleaning. All colours and formats in Metz Element can be produced in the MicroGRIP® surface, however minimum quantities may apply for other than the items shown.

Lappato (semi-polished) finish is also available in most colours by importation to order.
