AEON

Aeon Cement Greige

Aeon Cement Almond

Aeon Timber Grey

Aeon Brown

Aeon provides a fascinating blend of two distinctly different materials with a unifying mood of the effects of time.

The aged timber look perfectly reflects the strength and beauty of long term use, while the cement look pieces have a washed character that is stronger in the smaller 300 x 300mm format to stunning effect. A 750 x 750mm combination of both as an inlay completes the theme.
